

SP Diagnostics Fast Track Update - SD23.2 iMAP & iKeys Update

Fast Track Application Update

You will receive this email with each release to advise you of the additions made to iKeys and iMAP software. When we release new software we will also notify you via the SP Diagnostics notification tool that is included as part of the SPi and G2 Suites. From time to time we will also include other important information that is relevant to our iMAP and iKeys users.

Highlights of this months release include ABS brake bleeding on Rover and Ford Focus, headlight adjustment on Insignia, Ford injector calibration, Insignia & Astra-J instruments and parking sensors, speed limiting on Transit vans.

Have you Updated Recently?

A very high percentage of questions we get are from users who have not updated their SPi or G2 pod. Most issues can be solved just by performing this task, so every now and again run the SPi or G2 Suite and click Get Updates and follow the on-screen instructions.

New Subscription Loyalty Discount

We have listened to our customers once again and have already launched the new Loyalty Discount scheme for existing subscribers. iMAP, iKeys and iKeysPro customers who stay subscribed with us can get up to 20% off their yearly subscription price. As a subscriber, if you renew with SP Diagnostics before your subscription expires you can take
