G2 Pod - The Generation 2 Multi Application Pod

- Internet Updateable Application POD
- USB Update system
- Engine Management subscription
- Key Programming subscription

Overview

The SP Diagnostics G2 Pod supercedes the MAP pod to give even more application space and quicker update times. The Internet update system now provides users with updates each month giving the user the most up to date software possible. A new user kit comprises ISO, Ford and CAN harness along with EOBD and Ford Pods.

The G2 application pod is capable of having either Key Programming software, Engine/ABS/Airbag related software or both application suites for a total diagnostics and service solution.
