Overview...

The iKeys Pro package works the same as the standard Keys package but also lets you program and add keys, without needing a pincode. The pincode process currently works with Ford and Renault vehicles but more manufacturers are being added soon.

All you need is a valid subscription to iKeys Pro, SPi handset and an Internet connection.

The process is simple:

- Plug the handset into the car
- When you need security access, follow the on-screen instructions, then disconnect the handset
- Connect the handset up to your PC and SPi Suite, select pincode access from the suite
- Follow the instructions and then return to the vehicle, you can now program keys *

* Vehicle details are monitored & logged in order to prevent & detect crime, system access is prohibited during certain hours.
