— VOLVO Service Reset Tool

- Handheld, user friendly, simple and easy to use
- Compatible with latest CAN vehicles(using adapter included)
- Adapter also compatible with ACR4 product
- Backwards compatible with early systems
- Resets service lights on Volvo models listed
- Resets service messages on Driver Information Module
- Updateable (return back to SP Diagnostics)

Overview

The new VOLVO service reset tool has been designed to extinguish service lights for the range of Volvo vehicles including the latest CAN vehicles. The reset tool has been developed with the ability to not only extinguish the dashboard service light, but also the messages displayed on the Driver Information Module where applicable. The adapter included allows communication with the later CAN based vehicles and can also be used with the ACR4 product to give added

functionality on various models.

Applications
